## **1. NATURE AND CONTINUANCE OF OPERATIONS AND GOING CONCERN**

Northern Silicon International Inc. (the “Company”) is a company incorporated on July 3, 2014 pursuant to the British Columbia Business Corporations Act. The Company’s head office and principal place of business is 1100 – 1111 Melville Street, Vancouver, British Columbia, Canada V6E 3V6.

The Company currently does not carry on any active business and is seeking new business opportunities.

These condensed interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

As at April 30, 2025, the Company has an accumulated deficit of \$695,513 (July 31, 2024 - \$677,171), has not achieved profitable operations since inception, and expects to incur further losses in the development of its business. Where an acquisition or participation is warranted, additional funding may be required. The ability of the Company to fund its potential future operations and ongoing commitments is dependent upon the ability of the Company to obtain additional financing.

These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Company’s ability to continue as a going concern. These financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

These unaudited condensed interim financial statements were approved by the Directors on June 26, 2025.

## **2. BASIS OF PREPARATION**

These condensed interim financial statements for the three and nine months ending April 30, 2025, have been prepared in accordance with IAS 34 Interim Financial Reporting. These condensed interim financial statements follow the same accounting policies and methods of application of the Company’s most recent annual financial statements. They do not include all disclosures that would otherwise be required in a complete set of financial statements and should be read in conjunction with the Company’s July 31, 2024 annual audited financial statements which have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the International Accounting Standards Board (“IASB”), and interpretations as issued by the International Financial Reporting Interpretations Committee (“IFRIC”).

### 2. BASIS OF PREPARATION (cont'd)

These condensed interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as and measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. The condensed interim financial statements are presented in Canadian dollars (“CDN”), which is also the Company’s functional currency.

#### Critical accounting estimates, judgments, and assumptions

The preparation of financial statements requires estimates, judgments, and assumptions that are based on management’s experience and knowledge of the relevant facts and circumstance and are continuously evaluated.

These can affect the reported amounts, the valuation of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements as well as the reported amounts of revenues and expenses during the year. These financial statements include estimates, which, by their nature, are uncertain. The impacts of such estimates are pervasive throughout the financial statements. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods if the revision affects future periods. Estimates are based on historical experience, current and future economic conditions and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Due to market changes and other factors beyond the control of the Company, results may differ from the estimates used at the reporting date.

There were no significant assumptions about the future and other sources of estimation uncertainty that management has made at the statement of financial position reporting date, that could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made.
